#### TECH STACK

# NICO FIORITO

## FULL STACK DEVELOPER

### ABOUT ME

I'm a software developer with over six years of experience and a genuine passion for technology.

I'm committed to continuous learning and to building solutions that are not only technically solid, but also thoughtful and impactful.

My goal is to contribute fresh ideas, deliver high-quality work, and be part of a team that strive to create innovative experiences that truly make a difference.

I look forward to contributing and growing alongside other professionals who share that same vision.

### EXPERIENCE

#### Full Stack Developer

IKEA | April 2021 - March 2022

- Developed a custom CRM platform for managing both printed and digital labels for IKEA.
- Built a complete CRUD interface for label management, and a real-time dashboard to visualize their lifecycle (printing, in transit, installed).
- Contributed to frontend and backend implementation using modern frameworks and containerized environments.

#### Full Stack Developer and Team Lead

Grupo Piñero | March 2022 - August 2025

- Leading the development of enterprise tools for hotel operations and guest services.
- Internally, worked on a CRM used by hotel staff to manage guest statuses, reservations, services, currency exchange, and reporting dashboards.
- On the client side, co-developed the web and mobile platforms allowing guests to manage bookings, room services, surveys, and promotions.
- Managed a hybrid team, and participated in weekly client syncs.

### EDUCATION

#### Vocational Training in Cross-Platform App Development

International Education Center (CIDE) | 2019 - 2021

#### Continuous learning through real-world projects

[GitHub - NFMdev](https://github.com/NFMdev) | 2019 - Present

Enhanced my skills in modern tools through real-world projects
